## Soft Skills

---

Time Management, Team Work, Problem Solving, Creativity, Adaptability.

## Projects

---

### Ambulance Booking System

An Ambulance Booking System is an app or website that lets people easily request an ambulance in case of an emergency or for medical transport. Users can quickly book an ambulance, check its availability, and share their location. The system helps the ambulance service reach the person faster and ensures smooth communication between the user and the service provider. It often includes features like GPS for quick navigation and route planning to get to the destination as soon as possible.

## Hobbies

---

Reading Books, Drawing, Playing Games
